1. Odabir časopisa

Pritisak akademske zajednice? Osjećate li ga?

“Publish or Perish”
- zvuči poznato?

Izvor: redgreystock / Freepik

- **Publish or Perish**: pojavljuje se između 1960.-ih i 1980.-ih godina kada prioritet akademske zajednice postaju kvantitativni indikatori, brza objava rada postaje način poboljšanja statusa, unapređenja karijera i osiguravanja sredstava za financiranje
- **Globalni fenomen**: nije ograničen na akademsku zajednicu. Prisutan je u međunarodnim organizacijama i agencijama gdje publikacije postaju mjerilo produktivnosti znanstvenika
- **Negativni učinci**: pojava problema poput **predatorskih časopisa**, pristranosti kod citiranja, slabe reproducibilnosti istraživanja, loših provedbi istraživanja

Pritisak akademske zajednice? Osjećate li ga?

“Publish or Perish”
- zvuči poznato?

Izvor: redgreystock / Freepik

- **Utjecaj na istraživanja i poučavanje:** naglasak je na izgradnji CV-a, a ne na izgradnji znanja
- **Raširenost kulture:** promiče ‘jedinствен pristup za sve’ što je utjecaj američke akademske zajednice
- **Kritika kvalitete istraživanja:** znanstvenici su češće usredotočeni na kvantitetu, a ne kvalitetu publikacija

Odabir časopisa - što riskirate?

Pojedini nakladnici za objavu u **otvorenom pristupu** naplaćuju naknade za obradu članka (engl. **Article Processing Charges (APC)**), ili druge naknade, koje pokrivaju niz nakladničkih usluga

Izvor: storyset / Freepik

Usluge mogu uključivati:

- **upravljanje recenzijskim postupkom** (npr., obrada prijava, pronalaženje recenzenata, koordinacija recenzija...)
- **uređivanje teksta, grafičko oblikovanje i formatiranje**, priprema rada za objavu
- **pristup i vidljivost rada** (npr. web-stranica, održavanje servera, indeksiranost u bazama podataka, marketing i promocija)

Uz postojeće usluge, **pouzdani nakladnici** će implementirati niz strategija i praksi, ključnih za ostvarenje visokih standarda u etici izdavaštva

Odabir časopisa - što riskirate?

Izvor: [studio4rt](#) / Freepik

Predatorsko izdavaštvo obuhvaća naplaćivanje troškova objave rada bez provjere kvalitete rada, primjerice bez recenzijskog postupka. U ekstremnim slučajevima, prihvaćaju se bilo kakvi radovi, ali uz plaćanje. Predatorsko izdavaštvo obuhvaća i velike narudžbe plaćenih ili posebnih izdanja.

Šteta za znanstvenike

Dragocjeni rezultati istraživanja, objavljeni u ovim časopisima, teško su pronalazljivi i potencijalno mogu biti izgubljeni. **Njihova vidljivost je smanjena, a citiranost ograničena.**

Autori koji su na prevaru bili uvjereni da predaju svoj rad u takav časopis i žele ga povući, ponekad moraju platiti **veliku naknadu za povlačenje** rada.

Objavljivanjem rada u predatorskom časopisu, znanstvenici mogu ugroziti svoju karijeru i narušiti svoju reputaciju.

fake journals

dark journals

Što je predatorski časopis?

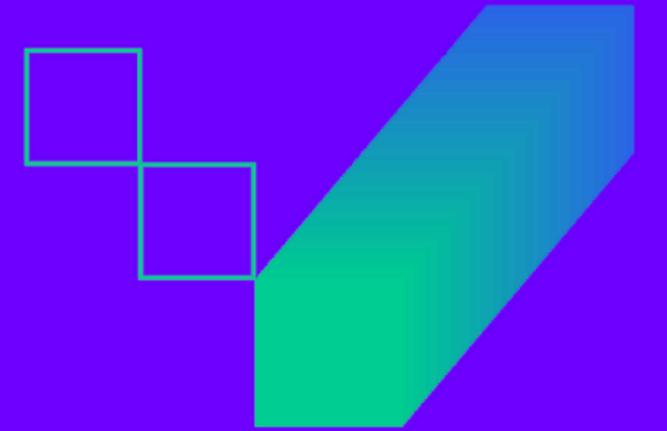

Poslovanje predatorskih nakladnika i časopisa temelji se na naplati troškova objave rada, ali bez pružanja očekivanih usluga poput uređivanja teksta ili recenzije.

questionable journals

illegitimate journals

journals “operating in bad faith”

deceptive journals

Razumijevanje predatorskih časopisa/nakladnika/ konferencija

Identificiranje predatorskih časopisa česta obilježja

- Skriveni ili nejasni autorski troškovi,
- Nedostatak kvalitetnih recenzija stručnjaka u području,
- Prihvatanje rada i/ili brza objava su garantirani (npr. u roku od 1 tjedna),
- Nepotpuno ili obmanjujuće navođenje politike (uključujući autorska prava i korisničke licence), procesa, osoblja i afilijacija na mrežnoj stranici časopisa i u korespondenciji
- Ako se čini da je predobro da bi bilo istinito, moguće da je riječ o prevari, odnosno predatorskom časopisu

Identificiranje predatorskih časopisa česta obilježja

- **Loša uporaba jezika** (uključujući lošu gramatiku) i loša kvaliteta produkcije (slaba sadržajna i jezična provjera te uređenje) u opisu i smjernicama časopisa te pojedinim objavljenim člancima
- **Nedostatak politike o etičnosti** i potrebe za izjavom o etičnosti, posebice kad je riječ o istraživanjima o ljudima i životinjama, konfliktima interesa i financiranju istraživanja
- **Nedostatak ispravaka/povlačenja članaka**, dostupnost članaka u tražilicama je promjenjiva unatoč tome što su navedeni u sadržaju časopisa

INSTITUTA RUĐER BOŠKOVIĆ

Što je to lažna konferencija?

Lažne odnosno predatorske konferencije djeluju bez uvjeta standardnih konferencija, nedostaje im recenzijski postupak te kvalitetno uredništvo. Unatoč tome, lažne konferencije često imitiraju izgled pravih akademskih skupova.

Lažne konferencije predatorske konferencije / spamferences

Što tvrde da nude

- Ugledne govornike/izlagače
- Prestižna mjesta održavanja
- Financijsku podršku istaknutih sponzora
- Organizatori prihvaćaju gotove sve prijave

Što uistinu nude

- Cilj je izvući kotizacije i troškove objave radova od polaznika
- Lošu posjećenost
- Slabu priliku za učenje i umrežavanje
- Nedostatak uredničke oštine i kredibiliteta koji inače prate znanstvene konferencije

Prioritet je profit, a ne znanstveni integritet.

Lažne konferencije predatorske konferencije / spamferences

Najčešća obilježja lažne ili predatorske konferencije:

- Nedostatak recenzijskog postupka
- Obmanjujući marketing
- Sumnjivi organizatori
- Nejasni ciljevi konferencije
- Upitno vrijeme i mjesto održavanja
- Lažne informacije o indeksiranosti zbornika sa skupova
- Odsutnost znamenitih govornika/izlagača
- Nedostatak transparentnosti
