

# EOSC servisi za digitalnu humanistiku

**Davor Davidović, Karolj Skala, Peter Kacsuk, Philipp Wieder**  
[davor.davidovic@irb.hr](mailto:davor.davidovic@irb.hr)

**EOSC-hub**

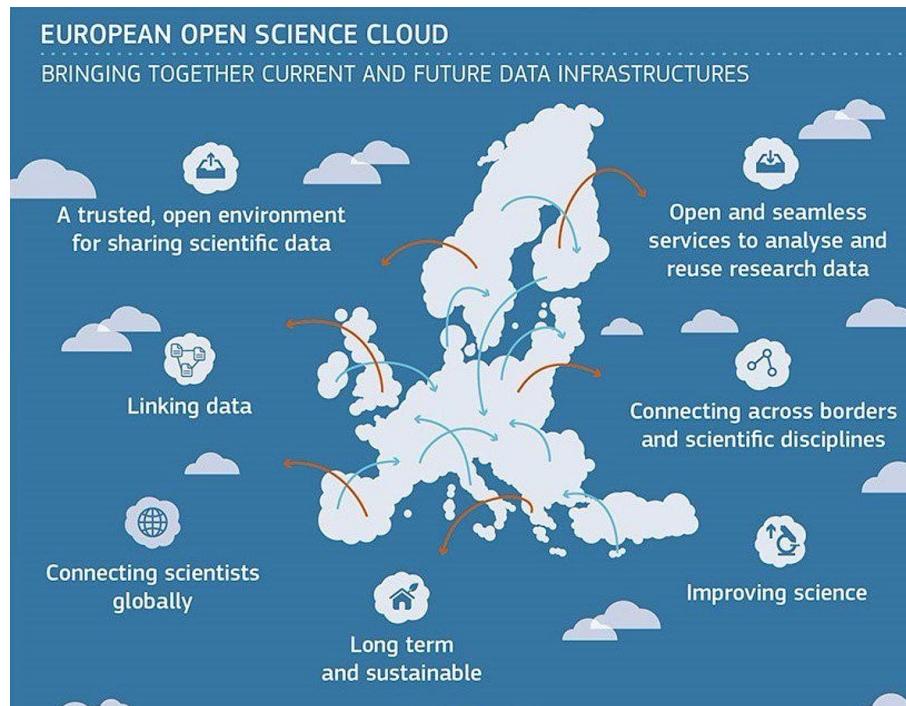

EOSC-hub receives funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 777536.

# Europski Otvoreni Znanstveni Oblak

„The European Open Science Cloud (EOSC) je vizija **federativne, globalno dostupne, multi-disciplinarne** okoline u kojoj istraživači, inovatori, kompanije i građani mogu međusobno **publicirati, pretraživati i koristiti** podatke, alate i druge rezultate za svoja straživanja, inovacije i edukaciju.“

(*Open Science Policy Platform EOSC wg*)

---

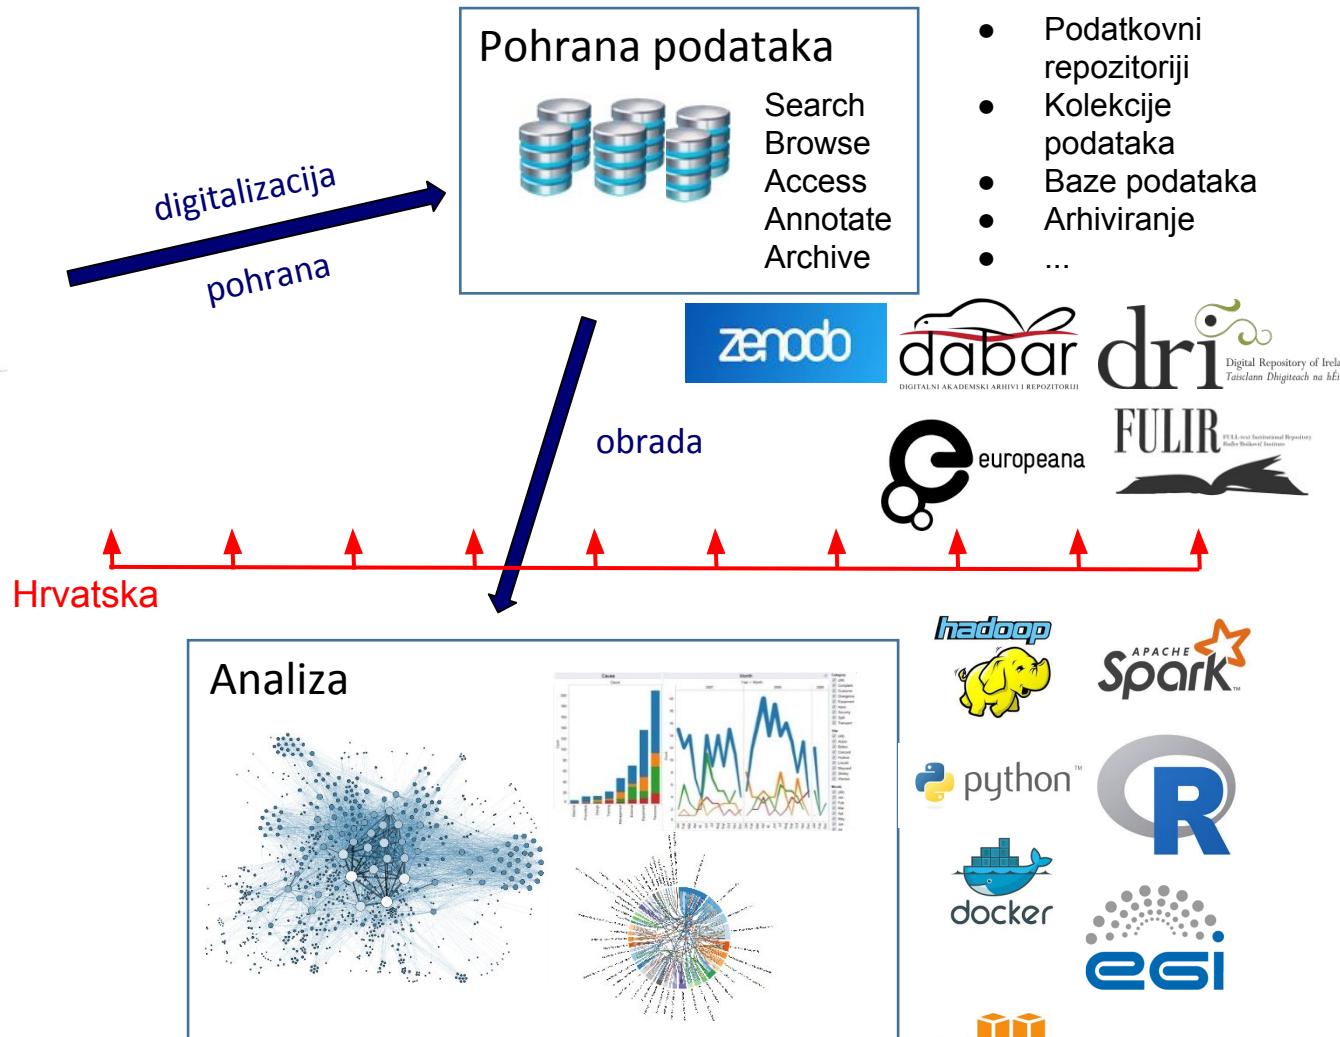

# Izazovi i prepreke

- većina prepreka u realizaciji EOSC ciljeva su više **društvene**, a ne **tehničke** prirode
- glavni tehnički izazov je **kompleksnost podataka i analitičkih procedura** unutar različitih znanstvenih disciplina
- **nedostatak interoperabilnosti** različitih alata, API-a, načina dijeljenja podataka, AAI,...
- **fragmentiranost** – između znanstvenih i ekonomskih domena, nacionalnih i regionalnih granica, upravljačkih modela...
- heterogenost i kratkoročni projektno-orientirani modeli financiranja (**problem održivosti**)
- zastarjeli sustav financiranja za znanost i inovacije
- podaci dobiveni iz javno financiranih istraživanja nisu uvijek javno dostupni
- nedostatak jasnih prednosti dijeljenja podataka

# Digitalna humanistika

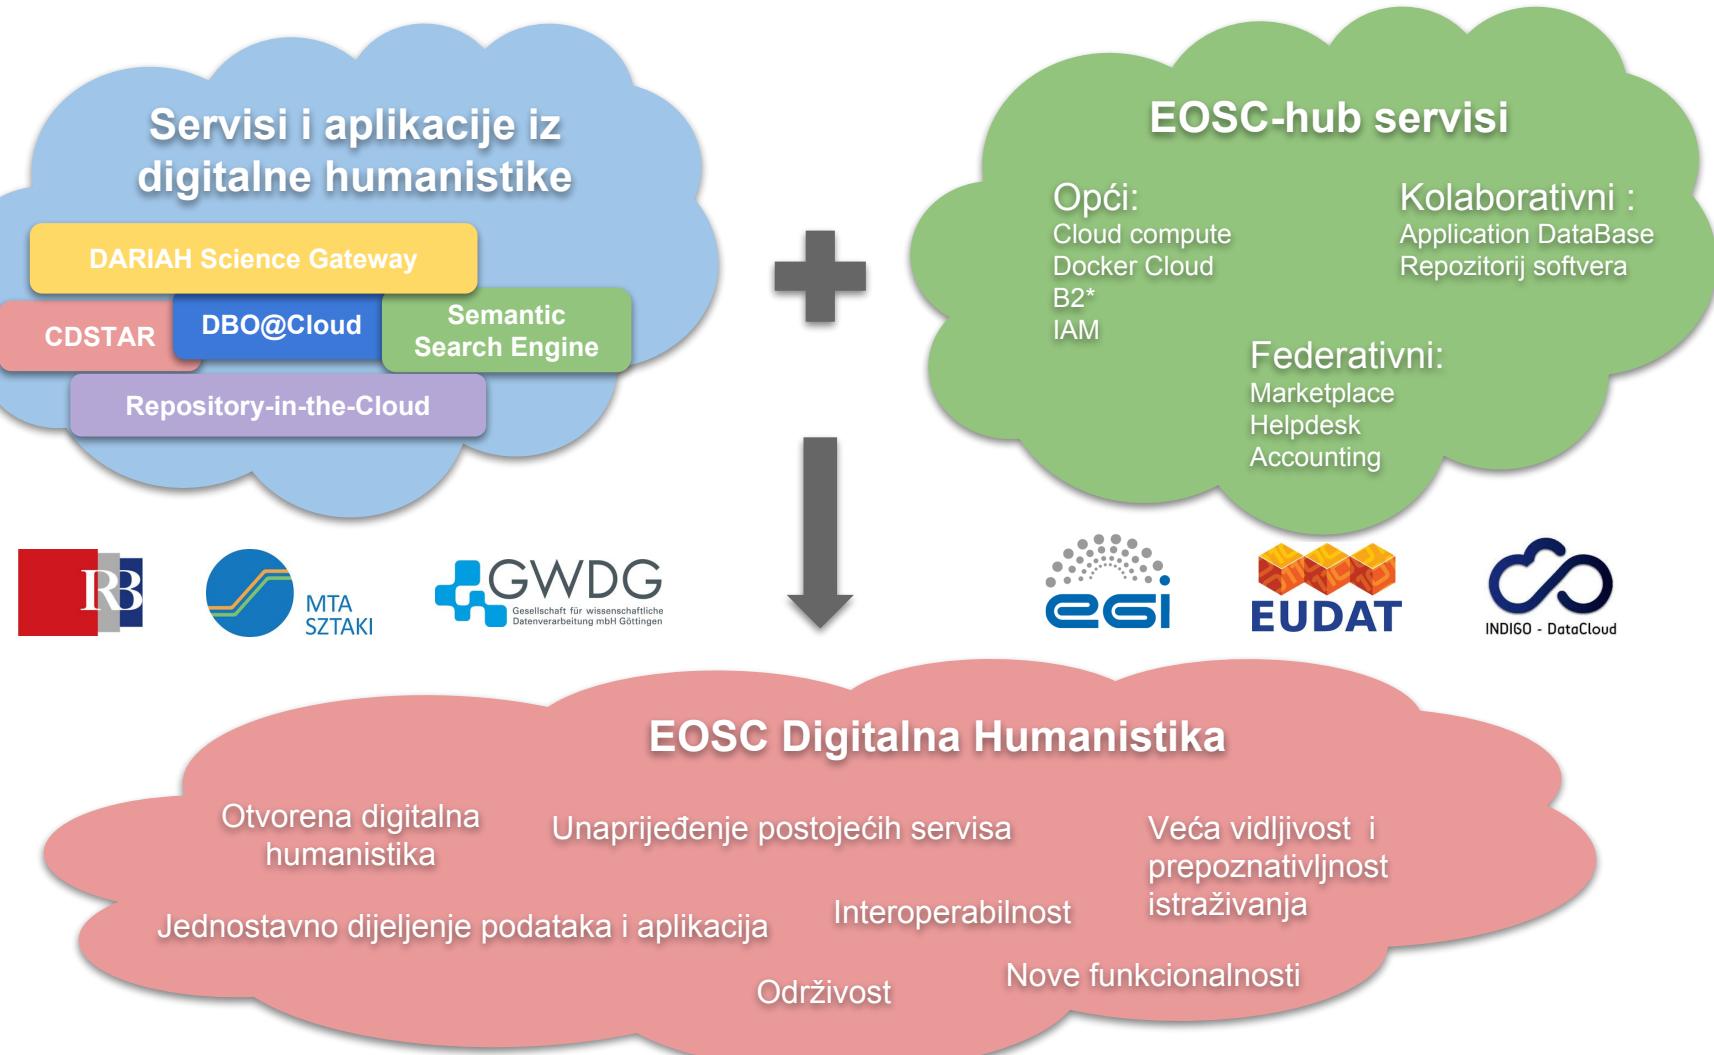

- Antropologija
- Arheologija
- Povijest
- Lingvistika
- Književnost
- Umjetnost
- ...

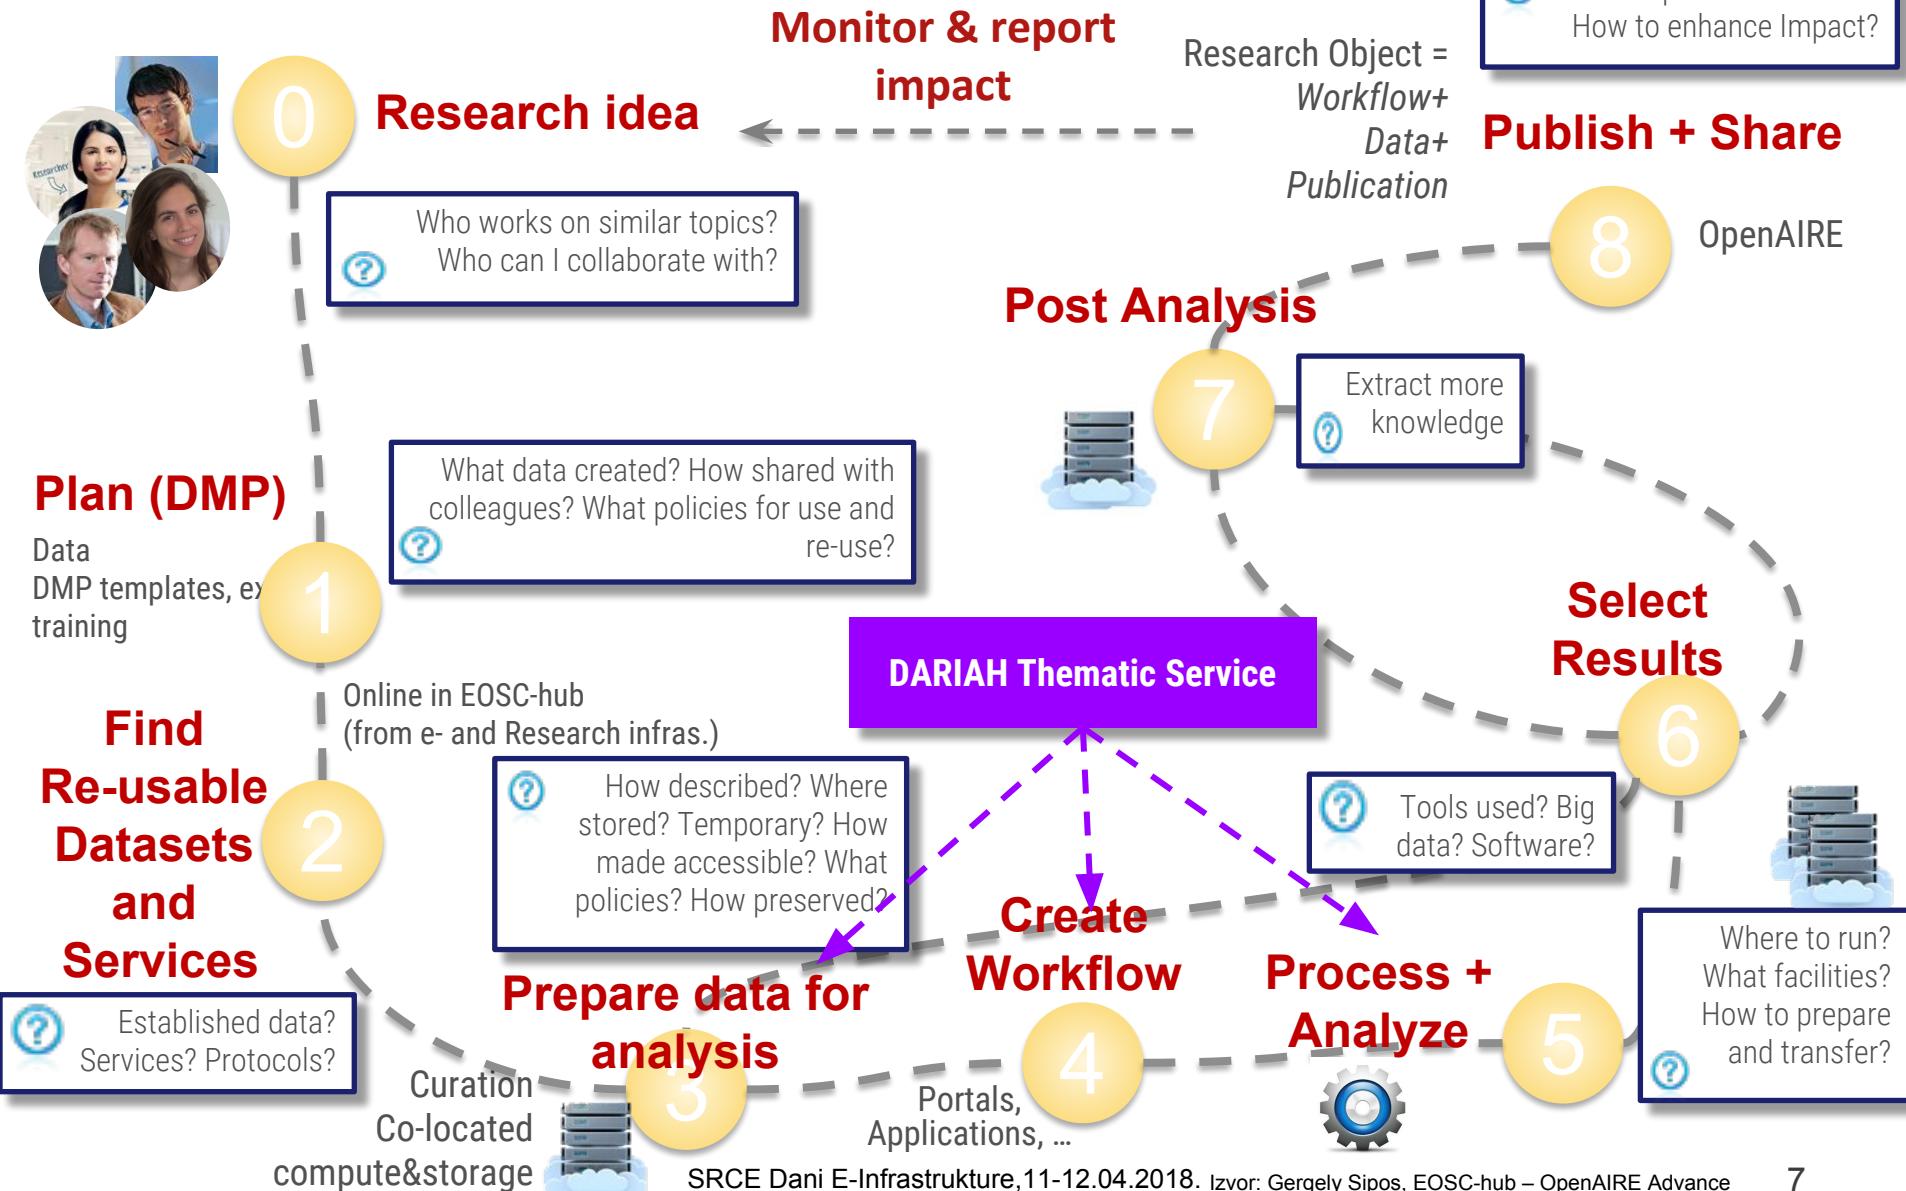

- Započeo 1.1.2018 (3 godine)
- Cilj je povezati mnogobrojne pružatelje usluga u tzv. Hub
  - centralna točka s koje će istraživači i inovatori moći otkriti, pristupiti i koristiti široki spektar resursa za naprednu podatkovno-orientiranu znanost
- Objedinjuje ponuđače usluga i servisa: EGI federacija, EUDAT, INDIGO-DataCloud te glavne europske istraživačke infrastrukture (npr. Elixir, CLARIN, Dariah,...)
- Jedinstveni katalog istraživačkih podataka, servisa i softvera

Link: <https://dariah-gateway.ipds.sztaki.hu/>

The screenshot shows the EGI Dariah CC Gateway homepage. At the top, there is a navigation bar with links for Welcome, Applications, Cloud Access, Workflow Development, File Transfer, Help, and Forum. The Welcome link is currently selected. Below the navigation bar, there is a main content area titled "Welcome to the EGI Dariah Gateway!". This section includes a brief description of the gateway's purpose, a "Help" link, and a note about the gateway's applications. A sidebar on the right lists various services: Cloud Access, Workflow Development, and File transfer. Each service has a brief description and a note about authentication requirements. At the bottom of the page, there is a footer with the EGI logo and a copyright notice.

## Welcome to the EGI Dariah Gateway!

This gateway was developed within the [EGI-Engage H2020 project](#) and operated by the [EGI Dariah Competence Centre](#). This gateway displays state-of-the-art capabilities of what's available in digital science with the use of EGI. The gateway provides various web-based applications and services for the Digital Humanities researchers, institutes and communities.

The gateway includes a [Help](#) page for giving more information on the applications and services it provides.

[The gateway includes the following applications:](#)

- Simple Semantic Search Engine (SSE):**  
Allows users to search in the [e-Infrastructure Knowledge Base](#) (Open Access Document Repositories and Data Repositories). No authentication is required to access the service.
- Parallel Semantic Search Engine (PSSE):**  
PSSE is a parallelised version of SSE enabling simultaneously search across the [e-Infrastructure Knowledge Base](#), [Europeana](#), [Cultura Italia](#), [Isidore](#), [OpenAgris](#), [PubMed](#) and [DBpedia](#) platforms. No authentication is required to access the service.
- DBO@Cloud:**  
A Cloud-based repository presenting 100+ years old collection of Bavarian dialects. No authentication is required to access the service.

[The gateway includes the following services:](#)

- Cloud Access:**  
Single-job applications and parameter-sweep applications can be run on the Dariah VO clouds without porting efforts. [Authentication](#) is required to access the gateway service and then robot certificate provides access to the cloud.
- Workflow Development:**  
Complex workflow applications can be developed and run on all the resources of the Dariah VO. [Authentication](#) is required to access the gateway service and then robot certificate provides access to the cloud.
- File transfer:**  
Enables transferring data from, to and between storage services providing HTTP, HTTPS, SFTP, GSIFTP, SRM, IRODS and S3 protocols. [Authentication](#) is required to access the gateway service and then additional authentication is needed to access the selected storage service.

# DARIAH znanstveni portal

Prednosti korištenja EOSC servisa:

- Usluga smještaja u računalnom oblaku - povećanje dostupnosti i skalabilnosti (EGI Cloud service)
- Jedinstvena prijava korištenjem npr. EduHr (AAI, IAM)
- Praćenje prometa i statistike korištenja portala (EGI Accounting)
- Jednostavno pokretanje vlastite instance portala unutar oblaka (App Database, Marketplace)
- Tehnička korisnička podrška (Helpdesk platform)

# Podatkovni repozitorij u oblaku

- Rezultat Indigo-DataCloud projekta
- Temeljen na Invenio platformi
- Omogućuje brzo stvaranje vlastitog podatkovnog repozitorija u računalnom oblaku
- Nove funkcionalnosti integracijom EOSC servisa
  - Pristup putem postojećih korisničkih računa, npr. EduHr (AAI)
  - Korištenje računalne i podatkovne infrastrukture u oblaku (EGI Cloud Service)
  - Jedinstveni opis traženih računalnih resursa i rezervacija infrastrukture (TOSCA Orchestrator)
  - Automatska izrada i pohrana sigurnosne kopije čitavog repozitorija (B2SAFE)

# Semantička pretraga baze podataka

The image displays two screenshots illustrating semantic search and data integration.

**EGI Dariah CC Gateway (Left Screenshot):**

- Header:** EGI DARIAH CC Gateway, Welcome, Applications, Cloud Access, Workflow Development, File Transfer, Help.
- Section:** Applications / Parallel Semantic Search Engine.
- Content:** Welcome to the parallel Semantic Search Engine (SSE). It shows a search bar with "bellis perennis" and a "Search" button. Below it, a navigation bar includes E-INFRA-KB, OPENAGRIS, EUROPEANA, CULTURAITALIA, ISIDORE, PUBMED, and DBPEDIA. A message says "Records found. Displaying 1 to 4".
- Details:** A red box highlights the search result "Prvo priopćenje o vrsti Puccinia distincta McAlpine, novoj europskoj hrđi na tratinčicama (Bellis perennis L.) iz Hrvatske (Citations) (Linked Data)". Another red box highlights the "Repository" section with "Portal of scientific journals of Croatia" and "More Info".

**hrčak Portal (Right Screenshot):**

- Header:** hrčak PORTAL ZNANSTVENIH ČASOPISA REPUBLIKE HRVATSKE.
- Content:** Article details for "Natura Croatica, Vol. 9 No. 4 Prosinac 2000". The abstract discusses the first report of *Puccinia distincta* McAlpine on daisies in Croatia. The article is by Dušan Jurc from the Gozdarstveni Institut Slovenije, Večnapot 2, 1000 Ljubljana, Slovenia. It includes sections like Početna stranica, Časopisi po područjima, Uredništva, Posjetnost časopisa, Autori, and Klijunče riječi.
- Graph View:** A large diagram titled "TadiLive" visualizes the semantic relationships between entities like Repository, DatasetResource, Resource, and various types of data (e.g., "Medicinal pastures. Seed germinability"). Nodes represent concepts like "Bellis perennis", "Bellis sylvestris", and "Puccinia distincta". Lines show relationships such as "has part", "has value", and "is part of".
- Footer:** Includes links to various databases and a "Zatvoriti" (Close) button.

---

# Analiza e-knjiga iz kolekcije Gutenberg

- Jednostavna analiza teksta svih e-knjige određenog autora objavljenih u kolekciji Gutenberg - <https://www.gutenberg.org>
- Dijelovi analize (workflow):
  - Spojiti se na bazu Gutenberg
  - Za danog autora (ime i prezime) skinuti sve objavljene e-knjige
  - “Očistiti” tekst od suvišnih dijelova (npr. zaglavlja)
  - Analizirati skinute tekstove (python programski jezik)
    - Frekvencija riječi
    - Broj tokena
    - Lingvistička raznolikost
    - Naći riječi duže do 7 znakova koje se pojavljuju barem 10 puta
- Kako pokrenuti analizu:  
<https://bitbucket.org/davordavidovic/textanalysis/overview>

---

## Pretraga DBÖ kolekcije (DBÖ@Cloud)

- 100 godina stara baza podataka Bavarskih dijalekata iz doba Austro-ugarske monarhije (podaci od Austrijske akademije znanosti)
- 50,000+ zapisa
- Baza je pohranjena u računalnom oblaku na više lokacija

## Zaključak

### Europska otvorena znanost

- dijeljenje i ponovno korištenje znanstvenih podataka, računalnih servisa i aplikacija
- interdisciplinarnost
- povezivanje svih dionika znanstvenog procesa (istraživači, ponuđači servisa i podatkovnih infrastruktura...)

### Digitalna humanistika

- **otvaranje** znanstvenih podataka (učiniti podatke dostupnijima široj zajednici) i interoperabilnost
- **razvoj** novih servisa i softvera temeljenih na naprednim (oblačnim) računalnim tehnologijama

# Hvala!
