APPLICATION OF ¹⁴C METHOD TO CHRONOLOGY OF THE CROATIAN DINARIC KARST – A CASE OF THE PLITVICE LAKES

Ines Krajcar Bronić*, Jadranka Barešić, Andreja Sironić

Ruđer Bošković Institute, Bijenička c 54, 10000 Zagreb, Croatia

Introduction

A complete list of publication of the staff of the Zagreb Radiocarbon Laboratory (Laboratory for low-level radioactivities of the Ruđer Bošković Institute, Zagreb, Croatia) related to application of radiocarbon and other isotope methods in studies of karst, especially the Dinaric karst.

For easier navigation, publications are sorted chronologically within the following decades: 1971 – 1980, 1981 – 1990, 1991 – 2000, 2001 – 2010, 2011 – 2021. The list includes papers published in international journals, abstract or extended abstracts published in conference proceedings, books and chapter in books. Publication in language other than English are marked. Radiocarbon data lists are given separately.
